RE: MB Docket No. 14-57, Comcast-Time Warner Cable merger

Dear Chairman Wheeler and the Commissioners of the FCC,

Enclosed are **132,668** individual public comments collected by CREDO Action for submission to the Comcast-Time Warner Cable merger docket. Individual comments may differ throughout, although the majority read as follows:

"The proposed merger between Comcast and Time Warner Cable would create a massive media conglomerate unlike anything we've seen before and lead to decreased competition and higher Internet and cable costs for tens of millions of Americans. It would also be a huge threat to the free and open nature of the Internet. The proposed merger is not in the public interest. I urge you to stop it from moving forward."

We've been attempting to deliver the comments via the FCC website for since Monday, August 25, with limited success. We've repeatedly received an error with the following message: "Could not roll back Hibernate transaction; nested exception is org.hibernate.TransactionException: JDBC rollback failed."

After spending hours of staff time corresponding with staff at the FCC, filing support tickets and attempting to upload files the website, we've finally resorted to sending the comments via snail mail. Please see below for tracking numbers of the comments that were successfully uploaded to the FCC website.

Please contact me if you have any questions about the attached comment submissions.

Sincerely,

Josh Nelson  
Campaign Manager, CREDO Action

RE: MB Docket No. 14-57, Comcast-Time Warner merger

The proposed merger between Comcast and Time Warner Cable would create a massive media conglomerate unlike anything we've seen before and lead to decreased competition and higher Internet and cable costs for tens of millions of Americans. It would also be a huge threat to a free and open internet. There is no reason to expect that anyone will benefit except for the two companies involved - since when has less competition actually benefitted consumers? The proposed merger is not in the public interest. I urge you to stop it from moving forward.
